

Car Skinz / Car Protect Stone Chip Protection

The New Car Skinz Carprotect range of films are transparent 150 micron and 300 micron self adhesive Polyurethane films suitable for the protection of vehicle bodies, With its excellent shock proofing properties it protects vehicle paint against chipping, scratches, car wash brushes etc.

The film was successfully tested by Sercovam, an independent laboratory working to Renault standard specifications for "self adhesive vehicle protection films". The test confirms that Car Skinz Carprotect film fully resists, car wash brushes, high pressure steam cleaners, abrasion, friction, exposure to sunlight (UV) and petrol spillage.
